PROTECTION *from the forces of nature*

PRACTICAL AND SMART

"Not only are the rollshutters invaluable in keeping our south exposure cooler in the summer, but this past exceptionally cold winter, they have provided valuable insulation."

G. JOHNSTON

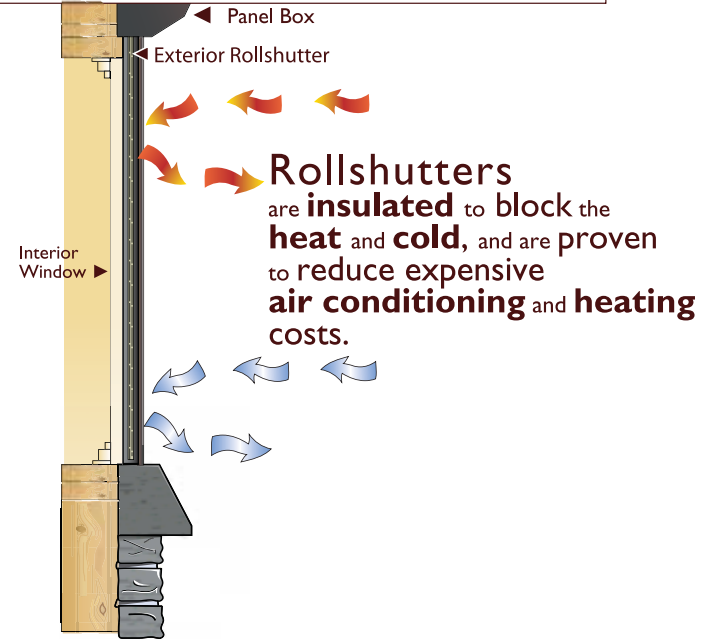

Protect your home from Mother Nature's harshest elements. Talius rollshutters provide energy efficient solutions to safeguard against intense sunlight, strong winds, and severe storms.

Energy Efficient

Talius rollshutters are installed on the outside of your windows, and are insulated to keep the heat in during the winter, and keep the heat out during the summer.

Rollshutters are Energy Efficient

Rollshutters are ideal for skylights and solariums.

"After having a rollshutter installed on the sunroom roof last spring our first summer with it was absolutely delightful! Our sunroom and house were cool and bearable and we are looking forward to having the full run of our house again this summer."

L. TURNER AND A. CLAR

SECURITY *solutions that work*

SOLID AND STRONG

"We are extremely pleased with your rollshutters in all respects. We have a great deal of peace of mind when away on vacations. We would recommend your rollshutters to all homeowners.."

MR. AND MRS. EVERS

Secure your home from break-ins. Talius rollshutters create a solid barrier against broken glass and theft when you need it, and disappear when you don't.

Talius rollshutters provide an attractive one-time cost-effective alternative to security bars, and can save you money on expensive alarm system monthly monitoring fees.

Custom made to suit your requirements, Talius rollshutters can be installed over windows and doors.

"We chose your rollshutters over installing a security system because we feel a preventative measure of a break-in was a wiser choice rather than coming home and finding our house was broken into, and the police were not able to respond in time. I feel very secure when we leave our home and drop all the rollshutters around the doors and windows. We love our rollshutters!"

M. REBAGLIATI

COMFORT *and peace of mind*

AN OASIS OF CALM

Talius rollshutters can be lowered to provide a quiet, dark environment.

Enhance the comfort of your home. Completely retractable, and insulated to absorb heat, cold, and noise, Talius rollshutters offer practical and unique solutions that will allow you to experience your home in style.

Talius rollshutters are easily adjusted to provide the right amount of shade and privacy, making them ideal for daytime sleepers or people wanting an exceptional home theatre experience.

Migraine headache sufferers

Sleeping children

Shift workers

Home theatre viewers
